PROFILE

B.Sc. MIS student and fast learner specializing in Java backend development and WordPress solutions with proven experience in developing enterprise-level applications. Skilled in Spring Boot, JavaFX, and database management with a strong foundation in both web development and desktop application design.

EDUCATION

B.Sc. Management Information Systems(special)
NSBM Green University

📅 10/2022 -Current

Current GPA - 3.6   📍 Pitipana, Homagama, Colombo, Sri Lanka

GCE. Advance Level

Taxila Central College

📅 2017 -2019   📍 Horana

Advanced Level studies in Science stream

SKILLS

Tech Skills

HTML	PHP	CSS
JavaFX	Javascript	My SQL
Java	SpringBoot	Wordpress
React js		

Tools and databases

My SQL   Github
IntelliJ Idea Postman

Soft Skills

People Leadership   Problem Solving
Long Term Planning   Time Management

Courses

Comphrehensive Master Java Diploma(CMJD)
Institute Of Java and Software Engineering(IJSE) ,Sri Lanka

Web Designing and Development Evotech Educational Institute

Currently pursuing ISTQB Certification

LANGUAGES

English, Sinhala

PROJECTS

Web-Based Student Management System
12/2024

Developed web based student management system using PHP,HTML,CSS. Implemented features for student admission ,course and teacher management, and admin login. Used XAMPP as the local server environment.
https://github.com/pdschethana/Student_management_system.git

Student Attendance Management System (Java Project)
07/2025

Developed students attendance management desktop application. Has two dashboards for admin and lecturers. The main features are students management, course management, lecturer management, attendance marking and getting reports. Technologies and tools-JavaFX ,MySQL, IntelliJ Idea, Scene builder.
https://github.com/pdschethana/Students_Attendance_management-system-_using-Java-fX.git

Course Registration System(Springboot backend)
07/2025

Currently developing a backend system for a course registration platform using Spring Boot. The application is being designed to support key features such as user registration, course management, and enrollment tracking.
https://github.com/pdschethana/SpringBoot-Course-Register-Application.git
